# Greek Isles & Mediterranean Cruise Options

Thank you so much for sharing your vision for such a meaningful trip. Celebrating your 20th anniversary with your first cruise is something truly special, and I love that you are prioritizing history, culture, and memorable experiences along the way. Based on what you shared, I focused on itineraries that highlight the richness of Greece while also incorporating Naples, giving you a well-rounded blend of iconic ruins, coastal beauty, and immersive local experiences. I have also selected three distinct cruise options across different styles, ranging from a more relaxed, culturally focused small-ship experience to a lively, amenity-rich larger ship, so you can find the level of service, atmosphere, and onboard experience that feels just right for you. Each option can be fully customized with flights, seamless transfers, hand-picked hotels, and curated tours, including unique experiences like a food tour, so you can feel supported every step of the way without having to navigate the details on your own.

# Options

Choose from the options below for your trip.

## Option 1: Odyssey of the Seas (Royal Caribbean)

Select option

# Overview

This option offers a more energetic and amenity-rich experience, perfect if you want a balance between sightseeing and entertainment. The ship itself is a destination, with plenty to do in the evenings and on sea days, from shows to interactive experiences like the North Star and indoor skydiving.

This style of cruising is more à la carte. Your cruise fare includes your accommodations, main dining venues, casual dining, entertainment, and many onboard activities. However, many of the specialty restaurants, drinks, Wi-Fi, gratuities, and some signature experiences come at an additional cost or through packages.

This gives you flexibility to customize your experience, but it also means your final cost depends on how much you choose to add. It is a great first cruise option if you like having lots to do and do not mind a more pay-as-you-go structure.

If you're in the mood for something chilled and refreshing, try the red and white tuna sashimi or the oceanic citrus with yuzu granite from the Ice section. **Chops Grille℠**
**CLASSIC AMERICAN STEAKHOUSE**

For more than a decade, the chefs at Chops Grille have specialised in serving up quality, hand-cut meat. **ATTIRE**

Smart Casual

**INSIDER TIP**

Open for lunch on sea days only.

**MENU HIGHLIGHTS**

The best way to begin a meal at Chops Grille is with the charred beef carpaccio, sliced thin and served rare with fresh arugula, Parmesan cheese, and truffle mustard dressing. If you're a seafood lover, upgrade your menu with one of the restaurant's chilled seafood towers — each comes with jumbo shrimp, green-lipped mussels, clams, Jonah crab claws, and Maine lobster. As far as entrees go, the tender filet is one of the most popular items on the menu. If nine ounces is a bit too much for you, opt for the smaller 6-ounce petite filet — it packs in just as much flavour as the standard cut. If you're a traditionalist, complement your meal with an order of steaming Yukon Gold mashed potatoes and creamed spinach, or change things up with Chops' signature gruyere cheese tater tots and truffled French fries. And don't forget to save room for a refreshing slice of tart key lime meringue pie or classic New York cheesecake, served with raspberries and lemon confit.

**PRO TIP**

The chefs at Chops Grille will hand cut, season, and grill each steak to your specifications. When in doubt, don't be afraid to ask for the chef's recommendation.

**Café Promenade**

At lunchtime, it's all about the flavourful chicken roti wrap and the New Orleans-style muffuletta, piled high with cold cuts and cheese. If you love a good antipasti platter, try the prosciutto with melon combo, or the pesto-grilled tomato. And if you have a sweet tooth, the decadent Mudcakes, creamy Willy Wonka pies, and fluffy round Led Zeppoles will make you come back for seconds.

**PRO TIP**

Some sandwiches, antipasti and desserts rotate daily, so stop by often to see what's new.

The Pigskin Sliders are also delicious. Stuffed with tangy BBQ pulled pork, they go great with an order of the garlicky Parmesan-sprinkled Playmakers Fries. If you're a wing lover, you can pair your order with three different sauces – Buffalo, BBQ or Jamaican Jerk – each with varying levels of spice. And if you're craving a great burger, Playmakers has two to choose from: the classic and a version with truffle cheese sauce. There's also an Impossible Burger that's out of this world, if you're looking for a plant-based option that packs in plenty of flavour. Dessert here lives up to the hype, too, so definitely save some room. Go for the five-scoop Touchdown Sundae or the Campfire Cookie, baked with melted marshmallow and Nutella and paired with milk shooters on the side.

**PRO TIP**

Feeling ambitious? Take on the Playmakers Challenge: if you can eat 100 of the hottest wings in 45 minutes, you'll receive a commemorative T-shirt.

## Jun 6 · Sunday

# Civitavecchia, Italy

Activity Sun, Jun 6

Duration
**Departs 3:00pm**

Italy's vibrant capital lives in the present, but no other city on earth evokes its past so powerfully. For over 2,500 years, emperors, popes, artists, and common citizens have left their mark here. Archaeological remains from ancient Rome, art-stuffed churches, and the treasures of Vatican City vie for your attention, but Rome is also a wonderful place to practice the Italian-perfected il dolce far niente, the sweet art of idleness. Your most memorable experiences may include sitting at a caffè in the Campo de' Fiori or strolling in a beguiling piazza.

## Jun 7 · Monday

# At sea

Activity Mon, Jun 7

Enjoy a relaxing day at sea as you sail between ports on Odyssey of the Seas. Take advantage of the ship's many amenities, from pools and hot tubs to lounges and live entertainment. This is a great day to explore the spa, fitness center, and onboard activities, or simply unwind on deck with a good book and ocean views. Daily programs will outline scheduled events so you can participate as much or as little as you like.

## Jun 8 · Tuesday

# Santorini, Greece

Activity Tue, Jun 8 at 9:00am

Duration
**Departs 11:00pm | Arrives 9:00am**

Undoubtedly the most extraordinary island in the Aegean, crescent-shape Santorini remains a mandatory stop on the Cycladic tourist route—even if it's necessary to enjoy the sensational sunsets from Ia, the fascinating excavations, and the dazzling white towns with a million other travelers. Called Kállisti (the "Loveliest") when first settled, the island has now reverted to its subsequent name of Thira, after the 9th-century-BC Dorian colonizer Thiras. The place is better known, however, these days as Santorini, a name derived from its patroness, St. Irene of Thessaloniki, the Byzantine empress who restored icons to Orthodoxy and died in 802. You can fly conveniently to Santorini, but to enjoy a true Santorini rite of passage, opt instead for the boat trip here, which provides a spectacular introduction. After the boat sails between Sikinos and Ios, your deck-side perch approaches two close islands with a passage between them. The bigger one on the left is Santorini, and the smaller on the right is Thirassia. Passing between them, you see the village of Ia adorning Santorini's northernmost cliff like a white geometric beehive. You are in the caldera (volcanic crater), one of the world's truly breathtaking sights: a demilune of cliffs rising 1,100 feet, with the white clusters of the towns of Fira and Ia perched along the top. The bay, once the high center of the island, is 1,300 feet in some places, so deep that when boats dock in Santorini's shabby little port of Athinios, they do not drop anchor. The encircling cliffs are the ancient rim of a still-active volcano, and you are sailing east across its flooded caldera. On your right are the Burnt isles, the White isle, and other volcanic remnants, all lined up as if some outsize display in a geology museum. Hephaestus's subterranean fires smolder still—the volcano erupted in 198 BC, about 735, and there was an earthquake in 1956. Indeed, Santorini and its four neighboring islets are the fragmentary remains of a larger landmass that exploded about 1600 BC: the volcano's core blew sky high, and the sea rushed into the abyss to create the great bay, which measures 10 km by 7 km (6 mi by 4½ mi) and is 1,292 feet deep. The other pieces of the rim, which broke off in later eruptions, are Thirassia, where a few hundred people live, and deserted little Aspronissi ("White isle"). In the center of the bay, black and uninhabited, two cones, the Burnt Isles of Palea Kameni and Nea Kameni, appeared between 1573 and 1925. There has been too much speculation about the identification of Santorini with the mythical Atlantis, mentioned in Egyptian papyri and by Plato (who says it's in the Atlantic), but myths are hard to pin down. This is not true of old arguments about whether tidal waves from Santorini's cataclysmic explosion destroyed Minoan civilization on Crete, 113 km (70 mi) away. The latest carbon-dating evidence, which points to a few years before 1600 BC for the eruption, clearly indicates that the Minoans outlasted the eruption by a couple of hundred years, but most probably in a weakened state. In fact, the island still endures hardships: since antiquity, Santorini has depended on rain collected in cisterns for drinking and irrigating—the well water is often brackish—and the serious shortage is alleviated by the importation of water. However, the volcanic soil also yields riches: small, intense tomatoes with tough skins used for tomato paste (good restaurants here serve them); the famous Santorini fava beans, which have a light, fresh taste; barley; wheat; and white-skin eggplants.

## Jun 9 · Wednesday

# Kusadasi, Turkey

Activity Wed, Jun 9 at 9:00am

Duration
**Departs 7:00pm | Arrives 9:00am**

Whilst the busy resort town of Kusadasi offers much in the way of shopping and dining – not to mention a flourishing beach life scene, the real jewel here is Ephesus and the stunning ruined city that really take centre stage. With only 20% of the classical ruins having been excavated, this archaeological wonder has already gained the status as Europe's most complete classical metropolis. And a metropolis it really is; built in the 10th century BC this UNESCO World Heritage site is nothing short of spectacular. Although regrettably very little remains of the Temple of Artemis (one of the seven wonders of the ancient world), the superb Library of Celsus' façade is practically intact and it is one of life's great joys to attend an evening performance in the illuminated ruins once all the tourists have left. The history of the city is fascinating and multi-layered and it is well worth reading up on this beforehand if a visit is planned. Another point of interest for historians would be the house of the Virgin Mary, located on the romantically named Mount Nightingale and just nine kilometres away from Ephesus proper. Legend has it that Mary (along with St. John) spent her final years here, secluded from the rest of the population, spreading Christianity. An edifying experience, even for non-believers. For the less historical minded amongst you, Kusadasi offers plenty in the way of activities. After a stroll through the town, jump in a taxi to Ladies' Beach (men are allowed), sample a Turkish kebap on one of the many beachfront restaurants and enjoy the clement weather. If you do want to venture further afield, then the crystal clear beaches of Guzelcamli (or the Millipark), the cave of Zeus and the white scalloped natural pools at Pamukkale, known as Cleopatra's pools, are definitely worth a visit.

## Jun 10 · Thursday

# Mykonos, Greece

Activity Thu, Jun 10 at 7:00am

Duration
**Departs 5:00pm | Arrives 7:00am**

Although the fishing boats still go out in good weather, Mykonos largely makes its living from tourism these days. The summer crowds have turned one of the poorest islands in Greece into one of the richest. Old Mykonians complain that their young, who have inherited stores where their grandfathers once sold eggs or wine, get so much rent that they have lost ambition, and in summer sit around pool bars at night with their friends, and hang out in Athens in winter when island life is less scintillating. Put firmly on the map by Jackie O in the 1960s, Mykonos town—called Hora by the locals—remains the Saint-Tropez of the Greek islands. The scenery is memorable, with its whitewashed streets, Little Venice, the Kato Myli ridge of windmills, and Kastro, the town's medieval quarter. Its cubical two- or three-story houses and churches, with their red or blue doors and domes and wooden balconies, have been long celebrated as some of the best examples of classic Cycladic architecture. Luckily, the Greek Archaeological Service decided to preserve the town, even when the Mykonians would have preferred to rebuild, and so the Old Town has been impressively preserved. Pink oleander, scarlet hibiscus, and trailing green pepper trees form a contrast amid the dazzling whiteness, whose frequent renewal with whitewash is required by law. Any visitor who has the pleasure of getting lost in its narrow streets (made all the narrower by the many outdoor stone staircases, which maximize housing space in the crowded village) will appreciate how its confusing layout was designed to foil pirates—if it was designed at all. After Mykonos fell under Turkish rule in 1537, the Ottomans allowed the islanders to arm their vessels against pirates, which had a contradictory effect: many of them found that raiding other islands was more profitable than tilling arid land. At the height of Aegean piracy, Mykonos was the principal headquarters of the corsair fleets—the place where pirates met their fellows, found willing women, and filled out their crews. Eventually the illicit activity evolved into a legitimate and thriving trade network. Morning on Mykonos town's main quay is busy with deliveries, visitors for the Delos boats, lazy breakfasters, and street cleaners dealing with the previous night's mess. In late morning the cruise-boat people arrive, and the shops are all open. In early afternoon, shaded outdoor tavernas are full of diners eating salads (Mykonos's produce is mostly imported); music is absent or kept low. In mid- and late afternoon, the town feels sleepy, since so many people are at the beach, on excursions, or sleeping in their air-conditioned rooms; even some tourist shops close for siesta. By sunset, people have come back from the beach, having taken their showers and rested. At night, the atmosphere in Mykonos ramps up. The cruise-boat people are mostly gone, coughing three-wheelers make no deliveries in the narrow streets, and everyone is dressed sexy for summer and starting to shimmy with the scene. Many shops stay open past midnight, the restaurants fill up, and the bars and discos make ice cubes as fast as they can. Ready to dive in? Begin your tour of Mykonos town (Hora) by starting out at its heart: Mando Mavrogenous Square.

Naples, in the Campania region, is Italy's third largest city. Its claim to fame is the spectacular location along one of the world's most splendid bays, backed by the perfect cone of Mount Vesuvius. In addition to its beautiful setting, Naples' surprises with other outstanding attractions such as the Royal Palace, San Carlos Opera House, the impressive National Archaeological Museum and the Castel Nuovo, dating from the 13th-century. The city's central area is best explored on foot. Chaotic traffic conditions make driving around the city a very frustrating experience. Naples provides a convenient starting point for trips to such favored destinations as Pompeii, Herculaneum and Mount Vesuvius. The Isle of Capri can be reached via a 45-minute hydrofoil service. The region of Campania was home to Greeks settlers some 300 years before Rome was founded. Pompeii, too, was a Greek town before being conquered by the Romans during the 5th century BC. It was under the Romans that Pompeii flourished and grew prosperous. When Mount Vesuvius erupted in 79 AD, the population of 20,000 was wiped out, but dozens of buildings were preserved under layers of cinder more than 20 feet deep. The most important finds from Pompeii are displayed in Naples' National Archaeological Museum. A visit here will no doubt enhance a visit to ancient Pompeii.

# Civitavecchia, Italy

Activity Sun, Jun 13 at 5:00am

Duration
**Arrives 5:00am**

Italy's vibrant capital lives in the present, but no other city on earth evokes its past so powerfully. For over 2,500 years, emperors, popes, artists, and common citizens have left their mark here. Archaeological remains from ancient Rome, art-stuffed churches, and the treasures of Vatican City vie for your attention, but Rome is also a wonderful place to practice the Italian-perfected il dolce far niente, the sweet art of idleness. Your most memorable experiences may include sitting at a caffè in the Campo de' Fiori or strolling in a beguiling piazza.

## Option 2: Enchanted Princess (Princess Cruises)

Select option

# Overview

This option offers a more classic and balanced cruise experience, sitting comfortably between the other two. The atmosphere is polished but relaxed, with a focus on good service, comfortable spaces, and a more traditional style of cruising that many first-time cruisers find easy to settle into.

Your fare includes accommodations, main dining, buffet options, entertainment, and a large portion of onboard activities. Compared to Royal Caribbean, a slightly higher percentage of dining options and experiences are included, which can help keep onboard spending more predictable.

Extras typically include drinks, Wi-Fi, gratuities, specialty dining, and certain premium spaces or experiences, though Princess does offer bundled packages that can make the experience feel more inclusive if you prefer that approach. This is a great middle-ground option that blends value, comfort, and a more relaxed onboard environment.

## Jun 15 · Tuesday

# Santorini, Greece

Activity Tue, Jun 15 at 9:00am

Duration
**Departs 8:00pm | Arrives 9:00am**

Undoubtedly the most extraordinary island in the Aegean, crescent-shape Santorini remains a mandatory stop on the Cycladic tourist route—even if it's necessary to enjoy the sensational sunsets from Ia, the fascinating excavations, and the dazzling white towns with a million other travelers. Called Kállisti (the "Loveliest") when first settled, the island has now reverted to its subsequent name of Thira, after the 9th-century-BC Dorian colonizer Thiras. The place is better known, however, these days as Santorini, a name derived from its patroness, St. Irene of Thessaloniki, the Byzantine empress who restored icons to Orthodoxy and died in 802. You can fly conveniently to Santorini, but to enjoy a true Santorini rite of passage, opt instead for the boat trip here, which provides a spectacular introduction. After the boat sails between Sikinos and Ios, your deck-side perch approaches two close islands with a passage between them. The bigger one on the left is Santorini, and the smaller on the right is Thirassia. Passing between them, you see the village of Ia adorning Santorini's northernmost cliff like a white geometric beehive. You are in the caldera (volcanic crater), one of the world's truly breathtaking sights: a demilune of cliffs rising 1,100 feet, with the white clusters of the towns of Fira and Ia perched along the top. The bay, once the high center of the island, is 1,300 feet in some places, so deep that when boats dock in Santorini's shabby little port of Athinios, they do not drop anchor. The encircling cliffs are the ancient rim of a still-active volcano, and you are sailing east across its flooded caldera. On your right are the Burnt isles, the White isle, and other volcanic remnants, all lined up as if some outsize display in a geology museum. Hephaestus's subterranean fires smolder still—the volcano erupted in 198 BC, about 735, and there was an earthquake in 1956. Indeed, Santorini and its four neighboring islets are the fragmentary remains of a larger landmass that exploded about 1600 BC: the volcano's core blew sky high, and the sea rushed into the abyss to create the great bay, which measures 10 km by 7 km (6 mi by 4½ mi) and is 1,292 feet deep. The other pieces of the rim, which broke off in later eruptions, are Thirassia, where a few hundred people live, and deserted little Aspronissi ("White isle"). In the center of the bay, black and uninhabited, two cones, the Burnt Isles of Palea Kameni and Nea Kameni, appeared between 1573 and 1925. There has been too much speculation about the identification of Santorini with the mythical Atlantis, mentioned in Egyptian papyri and by Plato (who says it's in the Atlantic), but myths are hard to pin down. This is not true of old arguments about whether tidal waves from Santorini's cataclysmic explosion destroyed Minoan civilization on Crete, 113 km (70 mi) away. The latest carbon-dating evidence, which points to a few years before 1600 BC for the eruption, clearly indicates that the Minoans outlasted the eruption by a couple of hundred years, but most probably in a weakened state. In fact, the island still endures hardships: since antiquity, Santorini has depended on rain collected in cisterns for drinking and irrigating—the well water is often brackish—and the serious shortage is alleviated by the importation of water. However, the volcanic soil also yields riches: small, intense tomatoes with tough skins used for tomato paste (good restaurants here serve them); the famous Santorini fava beans, which have a light, fresh taste; barley; wheat; and white-skin eggplants.

# Kusadasi, Turkey

Activity Wed, Jun 16 at 7:00am

Duration
**Departs 4:00pm | Arrives 7:00am**

Whilst the busy resort town of Kusadasi offers much in the way of shopping and dining – not to mention a flourishing beach life scene, the real jewel here is Ephesus and the stunning ruined city that really take centre stage. With only 20% of the classical ruins having been excavated, this archaeological wonder has already gained the status as Europe's most complete classical metropolis. And a metropolis it really is; built in the 10th century BC this UNESCO World Heritage site is nothing short of spectacular. Although regrettably very little remains of the Temple of Artemis (one of the seven wonders of the ancient world), the superb Library of Celsus' façade is practically intact and it is one of life's great joys to attend an evening performance in the illuminated ruins once all the tourists have left. The history of the city is fascinating and multi-layered and it is well worth reading up on this beforehand if a visit is planned. Another point of interest for historians would be the house of the Virgin Mary, located on the romantically named Mount Nightingale and just nine kilometres away from Ephesus proper. Legend has it that Mary (along with St. John) spent her final years here, secluded from the rest of the population, spreading Christianity. An edifying experience, even for non-believers. For the less historical minded amongst you, Kusadasi offers plenty in the way of activities. After a stroll through the town, jump in a taxi to Ladies' Beach (men are allowed), sample a Turkish kebap on one of the many beachfront restaurants and enjoy the clement weather. If you do want to venture further afield, then the crystal clear beaches of Guzelcamli (or the Millipark), the cave of Zeus and the white scalloped natural pools at Pamukkale, known as Cleopatra's pools, are definitely worth a visit.

# Katakolon, Greece

Activity Thu, Jun 17 at 12:00pm

Duration
**Departs 9:00pm | Arrives 12:00pm**

Katakolon could not seem less of a cruise port if it tried. A tiny enclave clinging to the western Peloponnese coast, it's a sleepy place except when ships dock. But it's a popular cruise destination because of its proximity to Olympia. Ancient Olympia was one of the most important cities in classical Greece. The Sanctuary of Zeus was the city's raison d'être, and attracted pilgrims from around the eastern Mediterranean, and later the city played host to Olympic Games, the original athletic games that were the inspiration for today's modern sporting pan-planetary meet. At the foot of the tree-covered Kronion hill, in a valley near two rivers, Katakolon is today one of the most popular ancient sites in Greece. If you don't want to make the trip to Olympia, then Katakolon is an ideal place for a leisurely Greek lunch while you watch the fishermen mend their nets, but there's just not much else to do there.

## Civitavecchia, Italy

Activity Sat, Jun 19 at 6:00am

Duration
**Arrives 6:00am**

Italy's vibrant capital lives in the present, but no other city on earth evokes its past so powerfully. For over 2,500 years, emperors, popes, artists, and common citizens have left their mark here. Archaeological remains from ancient Rome, art-stuffed churches, and the treasures of Vatican City vie for your attention, but Rome is also a wonderful place to practice the Italian-perfected il dolce far niente, the sweet art of idleness. Your most memorable experiences may include sitting at a caffè in the Campo de' Fiori or strolling in a beguiling piazza.

## Option 3: Allura (Oceania Cruises)

Select option

# Overview

This experience is all about immersion, ease, and elevated service. Onboard, you will find a refined and relaxed atmosphere with exceptional dining, fewer crowds, and a strong focus on the destinations rather than onboard entertainment. This is ideal if you picture your days spent exploring ancient sites and your evenings enjoying outstanding cuisine and a quiet glass of wine.

What makes this option especially appealing is how much is already included. All dining, including specialty restaurants, is complimentary, along with gratuities, Wi-Fi, specialty coffees, juices, and even laundry facilities. You will also receive a choice between a beverage package with wine and beer at meals or a shore excursion credit, which works beautifully for a port-intensive itinerary like this.

Additional expenses are minimal but can include cocktails and premium spirits, spa treatments, and upgraded excursions. Overall, this is the most seamless and "taken care of" experience, with very little onboard spend.

## Jun 25 · Friday

# Piraeus, Greece

Activity Fri, Jun 25 at 5:00am

Duration
**Departs 5:00pm | Arrives 5:00am**

It's no wonder that all roads lead to the fascinating and maddening metropolis of Athens. Lift your eyes 200 feet above the city to the Parthenon, its honey-color marble columns rising from a massive limestone base, and you behold architectural perfection that has not been surpassed in 2,500 years. But, today, this shrine of classical form dominates a 21st-century boomtown. To experience Athens—Athína in Greek—fully is to understand the essence of Greece: ancient monuments surviving in a sea of cement, startling beauty amid the squalor, tradition juxtaposed with modernity. Locals depend on humor and flexibility to deal with the chaos; you should do the same. The rewards are immense. Although Athens covers a huge area, the major landmarks of the ancient Greek, Roman, and Byzantine periods are close to the modern city center. You can easily walk from the Acropolis to many other key sites, taking time to browse in shops and relax in cafés and tavernas along the way. From many quarters of the city you can glimpse "the glory that was Greece" in the form of the Acropolis looming above the horizon, but only by actually climbing that rocky precipice can you feel the impact of the ancient settlement. The Acropolis and Filopappou, two craggy hills sitting side by side; the ancient Agora (marketplace); and Kerameikos, the first cemetery, form the core of ancient and Roman Athens. Along the Unification of Archaeological Sites promenade, you can follow stone-paved, tree-lined walkways from site to site, undisturbed by traffic. Cars have also been banned or reduced in other streets in the historical center. In the National Archaeological Museum, vast numbers of artifacts illustrate the many millennia of Greek civilization; smaller museums such as the Goulandris Museum of Cycladic Art Museum and the Byzantine and Christian Museum illuminate the history of particular regions or periods. Athens may seem like one huge city, but it is really a conglomeration of neighborhoods with distinctive characters. The Eastern influences that prevailed during the 400-year rule of the Ottoman Empire are still evident in Monastiraki, the bazaar area near the foot of the Acropolis. On the northern slope of the Acropolis, stroll through Plaka (if possible by moonlight), an area of tranquil streets lined with renovated mansions, to get the flavor of the 19th-century's gracious lifestyle. The narrow lanes of Anafiotika, a section of Plaka, thread past tiny churches and small, color-washed houses with wooden upper stories, recalling a Cycladic island village. In this maze of winding streets, vestiges of the older city are everywhere: crumbling stairways lined with festive tavernas; dank cellars filled with wine vats; occasionally a court or diminutive garden, enclosed within high walls and filled with magnolia trees and the flaming trumpet-shaped flowers of hibiscus bushes. Formerly run-down old quarters, such as Thission, Gazi and Psirri, popular nightlife areas filled with bars and mezedopoleia (similar to tapas bars), are now in the process of gentrification, although they still retain much of their original charm, as does the colorful produce and meat market on Athinas. The area around Syntagma Square, the tourist hub, and Omonia Square, the commercial heart of the city about 1 km (½ mi) northwest, is distinctly European, having been designed by the court architects of King Otho, a Bavarian, in the 19th century. The chic shops and bistros of ritzy Kolonaki nestle at the foot of Mt. Lycabettus, Athens's highest hill (909 feet). Each of Athens's outlying suburbs has a distinctive character: in the north is wealthy, tree-lined Kifissia, once a summer resort for aristocratic Athenians, and in the south and southeast lie Glyfada, Voula, and Vouliagmeni, with their sandy beaches, seaside bars, and lively summer nightlife. Just beyond the city's southern fringes is Piraeus, a bustling port city of waterside fish tavernas and Saronic Gulf views.

# Milos, Greece

Activity Sat, Jun 26 at 8:00am

Duration
**Departs 5:00pm | Arrives 8:00am**

Milos or Melos is a volcanic Greek island in the Aegean Sea, just north of the Sea of Crete. Milos is the southwesternmost island in the Cyclades group. The Venus de Milo and the Asclepius of Milos were both found on the island, as were a Poseidon and an archaic Apollo now in Athens.

## Jun 27 · Sunday

# Katakolon, Greece

Activity Sun, Jun 27 at 8:00am

Duration
**Departs 5:00pm | Arrives 8:00am**

Katakolon could not seem less of a cruise port if it tried. A tiny enclave clinging to the western Peloponnese coast, it's a sleepy place except when ships dock. But it's a popular cruise destination because of its proximity to Olympia. Ancient Olympia was one of the most important cities in classical Greece. The Sanctuary of Zeus was the city's raison d'être, and attracted pilgrims from around the eastern Mediterranean, and later the city played host to Olympic Games, the original athletic games that were the inspiration for today's modern sporting pan-planetary meet. At the foot of the tree-covered Kronion hill, in a valley near two rivers, Katakolon is today one of the most popular ancient sites in Greece. If you don't want to make the trip to Olympia, then Katakolon is an ideal place for a leisurely Greek lunch while you watch the fishermen mend their nets, but there's just not much else to do there.

# Catania, Italy

Activity Mon, Jun 28 at 11:00am

Duration
**Departs 8:00pm | Arrives 11:00am**

Catania is an ancient port city on Sicily's east coast. It sits at the foot of Mt. Etna, an active volcano with trails leading up to the summit. The city's wide central square, Piazza del Duomo, features the whimsical Fontana dell'Elefante statue and richly decorated Catania Cathedral. In the southwest corner of the square, La Pescheria weekday fish market is a rowdy spectacle surrounded by seafood restaurants.

## Jun 29 · Tuesday

# Valletta, Malta

Activity Tue, Jun 29 at 7:00am

Duration
**Departs 5:00pm | Arrives 7:00am**

Malta's capital, the minicity of Valletta, has ornate palaces and museums protected by massive fortifications of honey-color limestone. Houses along the narrow streets have overhanging wooden balconies for people-watching from indoors. Generations ago they gave housebound women a window on the world of the street. The main entrance to town is through the City Gate (where all bus routes end), which leads onto Triq Repubblika (Republic Street), the spine of the grid-pattern city and the main shopping street. Triq Mercante (Merchant Street) parallels Repubblika to the east and is also good for strolling. From these two streets, cross streets descend toward the water; some are stepped. Valletta's compactness makes it ideal to explore on foot. City Gate and the upper part of Valletta are experiencing vast redevelopment that includes a new Parliament Building and open-air performance venue. The complex, completed mid-2013, has numerous pedestrian detours in place along with building noise and dust. Before setting out along Republic Street, stop at the tourist information office on Merchant Street for maps and brochures.

## Jun 30 · Wednesday

# Palermo, Italy

Activity Wed, Jun 30 at 10:00am

Duration
**Departs 8:00pm | Arrives 10:00am**

Once the intellectual capital of southern Europe, Palermo has always been at the crossroads of civilization. Favorably situated on a crescent-shaped bay at the foot of Monte Pellegrino, it has attracted almost every culture touching the Mediterranean world. To Palermo's credit, it has absorbed these diverse cultures into a unique personality that is at once Arab and Christian, Byzantine and Roman, Norman and Italian. The city's heritage encompasses all of Sicily's varied ages, but its distinctive aspect is its Arab-Norman identity, an improbable marriage that, mixed in with Byzantine and Jewish elements, created some resplendent works of art. No less noteworthy than the architecture is Palermo's chaotic vitality, on display at some of Italy's most vibrant outdoor markets, public squares, street bazaars, and food vendors, and above all in its grand climax of Italy's most spectacular passeggiata (the leisurely social stroll along the principal thoroughfare).

## Civitavecchia, Italy

Activity Fri, Jul 2 at 7:00am

Duration
**Departs 5:00pm | Arrives 7:00am**

Italy's vibrant capital lives in the present, but no other city on earth evokes its past so powerfully. For over 2,500 years, emperors, popes, artists, and common citizens have left their mark here. Archaeological remains from ancient Rome, art-stuffed churches, and the treasures of Vatican City vie for your attention, but Rome is also a wonderful place to practice the Italian-perfected il dolce far niente, the sweet art of idleness. Your most memorable experiences may include sitting at a caffè in the Campo de' Fiori or strolling in a beguiling piazza.
